Problem Statement - Drone Operators

Can I fly my drones here?

Can I fly drones at X place?

Where do I keep my flight log?

How do I comply with regulation?

How can I get permission to fly?

Where can I get pre-flight information for decision?

Problem Statement- Smart Cities/Government

I have given license to Drone Operator. Now what?

How do I manage Drone Ecosystem?

How do I get Drone Flight information?

How can I make UTM platform for managing UAV ecosystem?

How can I ensure there is no violation from Drone Operators?

How can I give updates to Drone operators?

Current Senario

DCGA has provided OAN to Drone Operators

Working on issuance of DIN (Drone Identification Number)

Zone Information - Not Available

Solution

Digital Sky is helping make drones a part of everyday life by building the foundations for the low-altitude air navigation systems of the future.

Drones

Add and manage drones in-app for Flight planning and logs

Zones

Get the right information about Red, Yellow and Green zones

Permissions

Permission, weather information, Compliance and Flight log.

Market Validation

6,00,000+

Drone Operators in India

20,000+

Digital Sky Registration with
Government of India

Business Model

Free Services

Individuals
50 Flight
Limited Features.
